No part of this publication may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopy, recording, or any information storage and retrieval system, without permission in writing from the copyright owner.

The appearance of the code at the bottom of the first page of an article in this journal indicates the copyright owner's consent that copies of the article may be made for personal or internal use, or for the personal or internal use of specific clients. This consent is given on the condition, however, that the copier pay the stated per copy fee through the Copyright Clearance Center, Inc. (21 Congress Street, Salem, Massachusetts, 01970), for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Copy fees for pre-1981 articles are the same as those shown for current articles.

CONTENTS OF VOLUME 24

NUMBER 1, FEBRUARY 1981

SHAMSHAD H. GILANI AND MARTIN CHATZINOFF. Aluminum Poisoning and Chick Embryogenesis. 1

D. B. PEAKALL, J. TREMBLAY, W. B. KINTER, AND D. S. MILLER. Endocrine Dysfunction in Seabirds Caused by Ingested Oil. 6

P. K. GUPTA AND K. V. SASTRY. Alterations in the Activities of Three Dehydrogenases in the Digestive System of Two Teleost Fishes Exposed to Mercuric Chloride. 15

M. K. J. SIDDIQUI, M. C. SAXENA, A. K. BHARGAVA, T. D. SETH, C. R. KRISHNA MURTI, AND D. KUTTY. Agrochemicals in the Maternal Blood, Milk, and Cord Blood: A Source of Toxicants for Prenates and Neonates. 24

M. B. SNIPES AND M. F. CLEM. Retention of Microspheres in the Rat Lung after Intratracheal Instillation. 33

WILLIAM A. PRYOR, DONALD G. PRIER, AND DANIEL F. CHURCH. Radical Production from the Interaction of Ozone and PUFA as Demonstrated by Electron Spin Resonance Spin-Trapping Techniques. . . 42

R. H. BUSCH, R. E. FILIPY, M. T. KARAGIANES, AND R. F. PALMER. Pathologic Changes Associated with Experimental Exposure of Rats to Coal Dust. 53

BEN H. CHOI, KYU H. CHO, AND LOWELL W. LAPHAM. Effects of Methylmercury on Human Fetal Neurons and Astrocytes *in Vitro:* A Time-Lapse Cinematographic, Phase and Electron Microscopic Study. 61

S. KHANDELWAL, D. N. KACHRU, AND S. K. TANDON. Effect of Manganese on Certain Enzymes and Constituents of Blood and Serum in Rabbits. I. 75

S. KHANDELWAL AND S. K. TANDON. Effect of Manganese on Certain Enzymes and Constituents of Blood and Serum in Rabbits. II. . . . 82

M. V. GAYATHRI AND N. B. KRISHNAMURTHY. Studies on the Toxicity of the Mercurial Fungicide Agallol 3 in *Drosophila melanogaster*. . . 89

LIDIA KIREMIDJIAN-SCHUMACHER, G. STOTZKY, VINAY LIKHITE, JACK SCHWARTZ, AND ROBERT A. DICKSTEIN. Influence of Cadmium, Lead, and Zinc on the Ability of Sensitized Guinea Pig Lymphocytes to Interact with Specific Antigen and to Produce Lymphokine. . . . 96

L. KIREMIDJIAN-SCHUMACHER, G. STOTZKY, ROBERT A. DICKSTEIN, AND JACK SCHWARTZ. Influence of Cadmium, Lead, and Zinc on the

Ability of Guinea Pig Macrophages to Interact with Macrophage Migration Inhibitory Factor. 106

HARRY A. ROELS, ROBERT R. LAUWERYS, JEAN-PIERRE BUCHET, AND ALFRED BERNARD. Environmental Exposure to Cadmium and Renal Function of Aged Women in Three Areas of Belgium. 117

KENNETH R. REUHL, AND JOEL G. POUNDS. Absorption and Disposition of ^{203}Hg in the Pregnant and Nonpregnant Hamster following Oral Administration of [^{203}Hg]Methylmercuric Chloride. 131

ALOIS DAVID, JOSEF HURYCH, EVA EFFENBERGEROVÁ, RADIM HOLUŠA, AND JAROSLAV ŠIMEČEK. With statistical analysis by Zdeněk Roth. Laboratory Testing of Biological Activity of Ore Mine Dust: Fibrogenicity, Cytotoxicity, and Hemolytic Activity. 140

THOMAS F. GALE. The Embryotoxic Response Produced by Inorganic Mercury in Different Strains of Hamsters. 152

J. RIMINGTON. The Effect of Filters on the Incidence of Lung Cancer in Cigarette Smokers. 162

K. P. LEE, C. E. BARRAS, F. D. GRIFFITH, R. S. WARITZ, AND C. A. LAPIN. Comparative Pulmonary Responses to Inhaled Inorganic Fibers with Asbestos and Fiberglass. 167

MOTOYASU OHSAWA, AND KIYOYUKI KAWAI. Cytological Shift in Lymphocytes Induced by Cadmium in Mice and Rats. 192

P. ASOKAN, AND S. K. TANDON. Effect of Cadmium on Hepatic Metallothionein Level in Early Development of the Rat. 201

SUSAN M. LE MESURIER, BERNARD W. STEWART, AND ATHOL W. J. LYKKE. Injury to Type-2 Pneumocytes in Rats Exposed to Cigarette Smoke. 207

S. R. VERMA, SAROJ RANI, AND R. C. DALELA. Responses of Serum Transaminases in *Notopterus notopterus* Chronically Exposed to Phenolic Compounds and Their Combinations. 218

BOOK REVIEWS. 224

NUMBER 2, APRIL 1981

KŌJI NOGAWA, ETSUKO KOBAYASHI, AND FUMIO KONISHI. Comparison of Bone Lesions in Chronic Cadmium Intoxication and Vitamin D Deficiency. 233

D. MARCHAL-SEGAULT AND F. RAMADE. The Effects of Lindane, an Insecticide, on Hatching and Postembryonic Development of *Xenopus laevis* (Daudin) Anuran Amphibian. 250

KENNETH K.-S. CHAN AND MELVIN LEE. Role of Corticosterone in Cleft Palate Formation in Methylmercuric Chloride-Treated Mice. . . . 259

S. DUNLOP AND G. CHAPMAN. Detoxication of Zinc and Cadmium by the Freshwater Protozoan *Tetrahymena pyriformis*. II. Growth Experiments and Ultrastructural Studies on Sequestration of Heavy Metals. 264

S. R. MOORES, A. BLACK, J. C. EVANS, N. EVANS, A. HOLMES, AND A. MORGAN. The Effect of Quartz, Administered by Intratracheal Instillation, on the Rat Lung. II. The Short-Term Biochemical Response. 275

M. CHEUNG AND M. A. VERITY. Methyl Mercury Inhibition of Synaptosome Protein Synthesis: Role of Mitochondrial Dysfunction. . . . 286

MIRDZA L. PETERSON, RALPH SMIALOWICZ, SHIRLEY HARDER, BROCK KETCHAM, AND DENNIS HOUSE. The Effect of Controlled Ozone Exposure on Human Lymphocyte Function. 299

NANCY C. COON AND MICHAEL P. DIETER. Responses of Adult Mallard Ducks to Ingested South Louisiana Crude Oil. 309

C. K. CHOW, C. G. PLOPPER, M. CHIU, AND D. L. DUNGWORTH. Dietary Vitamin E and Pulmonary Biochemical and Morphological Alterations of Rats Exposed to 0.1 ppm Ozone. 315

K. ARAVINDA BABU, S. K. NIGAM, B. C. LAKKAD, D. K. BHATT, A. B. KARNIK, K. N. THAKORE, S. K. KASHYAP, AND S. K. CHATTERJEE. Effect of Chrysotile Asbestos (AP-I) on Sister Chromatid Exchanges in Chinese Hamster Ovary Cells. 325

HERMAN S. LILJA AND DAVID J. HOLBROOK, JR. Characterization of the 107S Peak on Hepatic Polysomal Profiles from Carbon Tetrachloride-Treated Rats. 330

D. A. WRIGHT AND J. W. FRAIN. Cadmium Toxicity in *Marinogammarus obtusatus:* Effect of External Calcium. 338

NEIL E. GARRETT, JAMES A. CAMPBELL, H. FRANK STACK, MICHAEL D. WATERS, AND JOELLEN LEWTAS. The Utilization of the Rabbit Alveolar Macrophage and Chinese Hamster Ovary Cell for Evaluation of the Toxicity of Particulate Materials. I. Model Compounds and Metal-Coated Fly Ash. 345

NEIL E. GARRETT, JAMES A. CAMPBELL, H. FRANK STACK, MICHAEL D. WATERS, AND JOELLEN LEWTAS. The Utilization of the Rabbit Alveolar Macrophage and Chinese Hamster Ovary Cell for Evaluation of the Toxicity of Particulate Materials. II. Particles from Coal-Related Processes. 366

J. GORSLINE, W. N. HOLMES, AND JAMES CRONSHAW. The Effects of Ingested Petroleum on the Naphthalene-Metabolizing Properties of Liver Tissue in Seawater-Adapted Mallard Ducks (*Anas platyrhynchos*). . 377

Bożenna Zawirska. The Role of the Kidneys in Disorders of Porphyrin Metabolism During Carcinogenesis Induced with Lead Acetate. . . 391

Ronald W. Pero and Åke Nordén. Mutagen Sensitivity in Peripheral Lymphocytes as a Risk Indicator. 409

Alf Fischbein, Karl E. Anderson, Shigeru Sassa, Ruth Lilis, Steven Kon, Laszlo Sarkozi, and Attallah Kappas. Lead Poisoning from "Do-It-Yourself" Heat Guns for Removing Lead-Based Paint: Report of Two Cases. 425

Albert F. Gunnison, Joseph Zaccardi, Linda Dulak, and Grace Chiang. Tissue Distribution of *S*-Sulfonate Metabolites following Exposure to Sulfur Dioxide. 432

Commentary

E. Cuyler Hammond and Irving J. Selikoff. Passive Smoking and Lung Cancer with Comments on Two New Papers. 444

Book Reviews. 453

Author Index. 457

The Subject Index for Volume 24 will appear in the December 1981 issue as part of a cumulative index for the year 1981.

INSTRUCTIONS TO AUTHORS

Manuscripts. Papers may represent original research in any of the disciplines now concerned with man-environmental relationships; it is anticipated that the relevance of the findings to broad problems of environmental biology and environmental medicine will be considered. Analytical and integrative reviews are equally eligible. The editorial emphasis of the Journal is on research concerning health effects of environmental alterations, broadly considered; engineering and control efforts are well served elsewhere.

Selected Book Reviews will be included.

Submission of Manuscripts. These should be submitted in duplicate to any member of the Board of Editors or to ENVIRONMENTAL RESEARCH, Editorial Offices, Environmental Sciences Laboratory, Mount Sinai School of Medicine, Fifth Avenue and 100th Street, New York, New York 10029. Further, prior review of the paper may be undertaken with a member of the Board of Consulting Editors, especially one with particular competence in the area concerned (as, environmental physiology, epidemiology and biostatistics, ecology, occupational medicine, toxicology, anthropology, climatology, air pollution, environmental medicine, geophysics, etc.); this will often expedite consideration of the paper.

Original papers only will be considered. Manuscripts are accepted for review with the understanding that the same work has not been and will not be published nor is presently submitted elsewhere, and that all persons listed as authors have given their approval for the submission of the paper; further, that any person cited as a source of personal communications has approved such citation. Written authorization may be required at the Editor's discretion. Articles and any other material published in *Environmental Research* represent the opinions of the author(s) and should not be construed to reflect the opinions of the Editor(s) and the Publisher.

Authors submitting a manuscript do so on the understanding that if it is accepted for publication, copyright in the article, including the right to reproduce the article in all forms and media, shall be assigned exclusively to the Publisher. The Publisher will not refuse any reasonable request by the author for permission to reproduce any of his or her contributions to the journal.

All papers will be published in English. It is preferable that papers be submitted in English to insure faithfulness to the author's meaning. If necessary, however, a translation will be arranged.

Form of Manuscript. Manuscripts should be typewritten (not mimeographed) with double or triple spacing and wide margins on high quality bond paper. Subdivision of the article into *Abstract* (50–200 words), *Introduction, Materials and Methods, Results, Discussion, Acknowledgments* and *References* is recommended. However, variations of this format are acceptable if they provide clearer expression of the subject. In addition, section headings are often useful.

The first page of the manuscript should contain the article title, author's name, and affiliation (include zip code where applicable). The second page should contain a proposed running head of fewer than 40 characters and the address of the person to whom proofs are to be sent. In the upper left-hand corner of each following page (including Reference pages, Tables, etc.) please type a shortened form of the title and the surname of the senior author. Please also number each of these pages.

Abbreviations. Follow the usage established by *Chemical Abstracts.* If others are utilized define on first use.

Figures and Tables. Number all figures consecutively with arabic numerals; legends should be typed together on a separate sheet. Lettering on the original figures should be large enough to take a reduction of 50–60 per cent. Graphs should be plotted with black India ink on light blue coordinate paper, no larger than 8½″ × 11″; grid lines that are to show in the engraving should be inked in black. Photographs should be glossy prints (5″ × 7″ or 8″ × 10″) with strong contrasts. X-rays should be right-reading glossy prints.

Tables are to be typed on separate pages and numbered with arabic numerals; a table title should be included.

Footnotes. Footnotes in the text are identified by superscript *numerals* and listed on a separate sheet; in the *tables* by superscript *letters* and placed at the bottom of the table.

References. These are to be cited in the text by the author's name and year of publication. References should be listed alphabetically at the end of the paper in the following order:

Curry, A. S. (1963). Acidic and neutral poisons. *In* "Progress in Chemical Toxicology" (A. Stolman, Ed.), Vol. 1, pp. 135–155, Academic Press, New York.

Waller, R. E., Commins, B. T., and Lawther, P. J. (1965). Air pollution in a city street. *Brit. J. Industr.* **22**, 128–138.

The names of journals should be abbreviated according to the *Index Medicus* or Chemical Abstracts' *Service Source Index*. Include in the reference list articles that are "in press," but incorporate in the text or use footnotes for "manuscript in preparation," "personal communication," or "unpublished observations."

Reprints. A reprint order form will accompany galley proofs. The senior author receives 50 reprints free of charge, and additional copies may be ordered.

Correspondence. Editorial communications should be addressed to ENVIRONMENTAL RESEARCH, Editorial Offices, Environmental Sciences Laboratory, Mount Sinai School of Medicine, Fifth Avenue and 100th Street, New York, N.Y. 10029. Business correspondence and information concerning subscriptions should be addressed to Academic Press, Inc., Journal Production Department, 111 Fifth Avenue, New York, N.Y. 10003.
